

Yudy Guo

Profile

Detail-oriented and user-focused UX/UI Designer with strong skills in user research, product thinking, and interaction design. Experienced in leading end-to-end design processes—from discovery to prototyping to delivery—using Figma and structured UX methodologies. A proactive collaborator who communicates clearly with cross-functional teams.

Experiences

Product Designer

MQJC Technology • Wocute Project • Full-time

Dec 2023 - Dec 2025 | Guangdong, China • On-site

- **Research-Driven Decision Making:** Redesigned a cycle tracking tool's UX through behavioral analytics (Hotjar) and In-app surveys, identifying pain points.
- **Data-informed Innovation:** Shipped A/B-tested features, contributing to a 50% rise in engagement and 31% higher retention within 6 months.
- **Cross-Cultural Design Expertise:** Coordinated 8+ cross-functional teams (UX, PM, Legal) to align design decisions with EU privacy regulations (GDPR) and business goals.
- **Mentorship and Team Enablement:** Trained and mentored 2 junior interns through structured onboarding, design feedback, and workflow guidance, helping them grow into independent contributors.

Interaction Designer

Tencent • WeChat Project • Full-time

May 2021 - Dec 2023 | Guangdong, China • On-site

- **Designed UI and UX for WeChat ecosystem:** Delivered polished high-fidelity designs with minimal supervision, taking full ownership of feature-level UX quality.
- **Multi-industry Design:** Collaborated with PMs, engineers, and data teams and translate cross-industry needs (retail, education, lifestyle services, local businesses) into scalable WeChat product solutions.
- **Agile Execution:** Managed and executed 50+ WeChat feature releases with a 98% on-time launch rate, adapting design workflows to Tencent's rigorous quality control, compliance requirements, and fast-paced review cycles.

User Experience Designer

Alipay • Insurance Software Department • Internship

Jul 2020 - Oct 2020 | Shanghai, China • On-site

Designed the internal platform for merchants on Alipay, China's largest third-party payment system with over 1 billion users. Conducted user research to optimize workflows.

Education

M.S. in Human–Computer Interaction | Juli. 2021 | Sun Yat-Sen University

B.A. in Internet and New Media | Juli. 2019 | Sun Yat-Sen University

Exchange Program in Centre Universitaire d’Enseignement du Journalisme (CUEJ), Strasbourg, France
Completed individual research and oral presentations on European economic issues, evaluated by CUEJ faculty | Oct 2018

Awards

Red Dot Design Award: Design Concept (Finalist) | 2020

China University Innovation Contest: National 2nd place | 2018

international Genetically Engineered Machine(iGEM): Gold medal | Best Software

Nominated for best applies design | 2017
